CentralDark - PDF Harness Self-Healing Core

Status: CRISTALIZADO | Owner: PDF-HARNESS-BRIDGE | Writer: SOL | Authority: SEGREDO/CHEFE

Formula soberana

```
render -> verify -> operate -> re-render -> diff_or_verify -> receipt -> NEXT_CURSOR
```

O self-healing fica no coracao do harness. Ele corrige falhas observaveis no ponto material, registra receipt e aprende por padroes. Ele nao reescreve o proprio core automaticamente.

Fluxo

```
input PDF / intencao -> plan deterministico -> executar formula -> detectar falha ->
failure_signature -> correction_pipeline -> gates -> receipt -> NEXT_CURSOR
```

Gates

Gate	Regra
UNKNOWN	UNKNOWN != PASS
Renderer	PDF_RENDER_ABSENT != PASS
OCR	OCR_TEXT_WITHOUT_VISUAL_VERIFY != PASS
Redaction	REDACTION_OVERLAY != TRUE_REDACTION
Self-healing	SELF_HEALING != SELF_REWRITE
Regressao	REGRESSION_UNKNOWN != PROMOTION

Ranking profissional

Classe	Poder	Escopo
CLASS_C	10	detectar e reportar
CLASS_B	25	retry seguro e triagem read-only
CLASS_A	50	normalizar entrada e rerotear
CLASS_S	75	corrigir ferida material
SENIOR	90	provar com renderers e anti-regressao
MESTRE	100	promover regra so com teste e receipts

Taxonomia inicial

RENDER_FAIL -> normalizar PDF, trocar renderer e renderizar novamente.
OUTPUT_NO_RENDER -> bloquear PASS, renderizar output e verificar.
TEXT_CLIPPED -> rejeitar PDF final e voltar para DOCX/PPTX quando necessario.
OCR_LOW_CONFIDENCE -> marcar UNKNOWN, rerodar OCR e verificar texto.
REDACTION_OVERLAY -> bloquear, aplicar true redaction e provar ausencia por extracao.
FORM_FIELD_MISMATCH -> inspecionar AcroForm e valores aceitos antes de preencher.
COORDINATE_DRIFT -> recalcular PDF points e image pixels.
NO_RECEIPT -> bloquear PASS e escrever receipt com NEXT_CURSOR.
REGRESSION_DIFF_UNKNOWN -> bloquear promocao ate classificar diff visual.

Fixed point mensuravel

```
same capability + same scope + different executor -> same material_id -> same task -> same pipeline
-> self_healing.enabled=true -> self_rewrite_allowed=false -> validation.ok=true
```

Limite real: este documento prova contrato e metodo. Operacao real em PDF ainda exige PDF material, render antes/depois, diff e receipt de operacao.
